👤 PROFILE

- **Chief Technology Officer** with 10 years of experience leading **web development** and driving **tech innovation**.
- At **FPS Lounge**, led a **cross-functional team**, boosting **user engagement by 40% in just six months**.
- Expert in **Next.js, Node.js, TypeScript, Firebase** and cloud platforms like **Google Cloud Platform**.
- Passionate about **building scalable solutions**, mentoring teams, and **staying ahead of tech trends**.
- Skilled in **React.js, Docker, GitHub/GitLab**, and strategic planning for **high-impact projects**.

💼 EMPLOYMENT HISTORY

CTO at FPS Lounge, Remote
March 2023 — February 2025

- **Started as Senior Lead Engineer** and, through strong contributions, was **promoted to CTO**.
- **Single-handedly built the entire platform** from scratch—initially on **WordPress**, then migrated to **React**, and later **Next.js** for performance and scalability.
- Developed the **backend using Firebase & Google Cloud Platform (GCP)**, ensuring a robust and scalable infrastructure.
- Created a **thriving platform** where **thousands of gamers** book coaching sessions and earn money.
- Played a key role in **talking to angel investors**, helping secure funding and drive growth.
- Launched a **highly successful course program**, starting with **HisWattson (a top Twitch celebrity)**, which led to **massive sales**.
- Expanded the platform by **bringing in multiple pro gamers** to offer courses in various games.
- The **coaching and course bookings flourished**, turning FPS Lounge into a major player in the gaming education space.

Freelancer at Upwork, Remote
September 2021 — February 2023

- Implemented successful e-commerce solutions for long-term clients, resulting in a significant increase in online sales and customer engagement
- Led the development and launch of the cryptocurrency project Phuntoken.
- Consistently exceeded client expectations by delivering high-quality results on various projects, including those for clients Gumballpoodle, Browtricks, Phunware.
- Demonstrated ability to work effectively with cross-functional teams to meet tight deadlines and deliver projects within budget.
- Built strong, lasting relationships with clients and team members through clear communication and a strong work ethic.

Software Engineer at L&T Technology Services, Mysore

July 2018 — August 2021

- Led the development of various successful projects at L&T, resulting in increased efficiency and productivity for the company
- Experience in building both frontend & backend, data services and Microservices at scale
- Experience leading and architecting major new enhancements
- Strong understanding of web services and best practices
- Strong experience with managing the security aspects
- AWS devops skills using ECS and Docker
- Nodejs, ExpressJS, ASP.NET MVC, MSSQL
- Hands-On Experience on Restful API Integration

EDUCATION

B.E in Information Technology, Oriental Institute of Science & Technology, Bhopal

April 2014 — May 2018
